EDUCATION

City University of Hong Kong(CityU)

-Master of Science in Applied Physics

Course Taken: **Advanced Computational Methods**

Sep 2023-Aug 2025

Hong Kong

The Hong Kong Polytechnic University(PolyU)

-Bachelor of Science in Computing(Computer Science), Minor

Degree in Applied Mathematics

Honour: **Second Upper Division**

Sep 2018-Aug 2022

Hong Kong

Peking University

-Summer Semester Exchange Student

CGPA: **3.68/4.00**

July 2021

Beijing

WORK EXPERIENCE

West Branch, China Academy of Information and

June 2023-Aug 2023

Communications Technology(CAICT)

-Software Testing Engineer(Intern)

Chongqing, China PR

1. Tested the functionalities of the web application system(JSP site) which was developed by the R&D department of the organization and reported the identified bugs to the project management system by writing reports and submitting the execution result of the testing web application system

2. Reviewed the software project manual to understand the business logic of the web application system as developed by the R&D department of the organization to develop deep understanding of the web application system's application logic, API endpoints, authentication mechanisms, and data flow pattern

Institute of Advanced Executive Education,

Nov 2022-June 2023

The Hong Kong Polytechnic University

-Part-time Teaching Assistant(Supervised by [Prof. Brian Kei](#))

Hong Kong

1. Programmed, Debugged, Tested the execution result of Linux Shell Script, GO, NodeJS and Web Front-End User Interface to ensure the Lab experimental activities are conducted properly and reviewed the Lab manual of the HKMA ECF fintech course about the Blockchain/Distributed Ledger Technology

2.Performed teaching assistant service for the trainee and handling their enquiries who enrolled the HKMA ECF fintech course co-organized by the university and the Hong Kong Institute of Bankers

PricewaterhouseCoopers limited

Sep 2022-Feb 2023

-Risk Assurance Associate(Cyber team at [Dark Lab](#))

Hong Kong

1. Analyzed architecture and functionality of **50+** web applications to identify security vulnerabilities, developing deep understanding of application logic, API endpoints, authentication mechanisms, and data flow patterns
2. Validated and Reproduced the **10+** discovered Vulnerabilities of the client's web application system
3. Maintained vulnerability documentation database and authored 35+ technical penetration testing reports detailing findings, severity classifications, and mitigation strategies

Department of Computing, The Hong Kong Polytechnic University *June 2022-Aug 2022*
-Research Student Assistant(Supervised by [Dr. Henry Chan](#)) *Hong Kong*

1. Implemented the **Facial Recognition** program with **Microsoft Azure API** and **Python 3**
2. Reviewed 20+ literatures and researched the latest development on Facial Recognition and the implementation of a hybrid classroom

Office of the Chief Information Officer, The Education University of Hong Kong *July 2021—Nov 2021*
- IT Intern(Programming) *Hong Kong*

1. Implemented the email notification function of the developing web application system by using **Java Servlet Page, JBoss, Oracle Database** and the **Eclipse IDE**.
2. Carried out paper submission form digitalization by designing and creating the frontend layout of digital form, the backend workflow procedure with dedicated tools
3. Implemented the automated validation checking of the user submitted input from the created digital form by proprietary scripting language
4. Prepared User Acceptance Testing(UAT) document for system performance testing

HONORS & AWARD

24- hour IEEEExtreme 17.0 Global Programming Competition	World Top 14(0.002%) Nov 2023
Asia Pacific Cyberattack Response Challenge 2023	Second Runner-up May 2023
Huawei ICT Competition Global Final(Cloud Track) 2021-2022	First Prize (over 5000+ teams)June 2022
The Hong Kong Techathon 2021	First Runner-up Jan 2021
The Hong Kong Cyber Security New Generation Capture the Flag Challenge 2020(Tertiary Institution Category)	First Runner-up Nov 2020

SKILLS

Programming Languages: Java, C/C++, Python 3, HTML, CSS, PHP, JavaScript

Web Applications: React.js, Vue.js, Python Flask, Python Django, Java Spring, RESTful API

Database Technologies MySQL, Oracle Database, MongoDB

Version Control: Git

IT-related Skills: Linux Bash Scripting, Linux System Administration, Docker, AWS, Microsoft Azure, Huawei Cloud

Machine Learning Skills: . NumPy, Pandas, TensorFlow,PyTorch, Keras, OpenCV

Miscellaneous: CI/CD, Penetration testing

Certifications: Huawei HCIA Big Data, Microsoft Azure AI Fundamentals AI-900(exam score: 957/1000)

Languages: English (Proficient), Mandarin (Proficient) and Cantonese (Native)
